Beesley 50K Race Report and Results 11/08/2008

Race started at 0945 and finished at 1537:53 in winds of 8-15mph with a few gusts to 20. We sailed approx. 50 kilometers with 9 boats and all finished. We had three classes: Heavy A (6 boats), Heavy boats), Light Displacement (1 boat). We started all together and ran the same course so we will pub an overall corrected finish in addition to class orders. Class Trophies will be presented at the quarte meeting on Jan. 11, 2009 (Change of Watch)

Thank you to all participants and the race committee. It was a great day for sailing and I would like encourage all other members of HIYC to get involved in racing by racing your own boat, crewing on someone else's boat, helping on race committee or acting as Regatta photographer. This is a great to become a better sailor and to get to know your fellow members. Greg Theriot, Race Chairman
